

CiRA Recruitment

Junior Associate Professor (PI) (Female Only)*, the Faculty Consort of iPS Cell Research and Application, Kyoto University (CiRA Project for Discovering and Developing Future Independent Researchers)

*** Only one position, either Junior Associate Professor or Assistant Professor, will be filled. Please refer to the latter part of this PDF for the application guidelines for the Assistant Professor position.**

December, 25, 2024

Position	Junior Associate Professor (female only, Principal Investigator)
Work location	Center for iPS Cell Research and Application (CiRA), Kyoto University Address: 53 Kawahara-cho, Shogoin, Sakyo-ku, Kyoto Access: five-minute walk from Jingu-marutamachi station of Keihan Railway *Home, etc., if telecommuting is permitted or ordered by Kyoto University.
Job description	The purpose of the “CiRA Project for Discovering and Developing Future Independent Researchers” is to develop young researchers with the potential to play a pioneering role in the field of life sciences of the next generation and conduct world-class research. Under this project, CiRA is seeking a Junior Associate Professor (PI). [Targeted fields] We call for ambitious research proposals that break away from conventional ideas across a wide range of scientific fields. We especially seek applications from researchers aiming to pioneer new advancements in life sciences or medicine using iPS cells, reprogramming techniques, etc., at the molecular, cellular, tissue, organismal, and other levels. Please refer to the CiRA Website (http://www.cira.kyoto-u.ac.jp) for an overview of the institute.
Support System	The successful candidate will: <ul style="list-style-type: none">- be employed as regular faculty staff (Junior Associate Professor) prescribed in Kyoto University Work Rules for Faculty and Staff.- receive research funds, including start-up expenses, of up to 10 million yen per year.- be assigned a dedicated research assistant (e.g., a Part-time Researcher, Assistant Technical Staff).- be employed for five years with no renewal.- be assigned a faculty mentor to provide advice on research activities and access to experimental equipment as needed.- have access to well-equipped research environment, including cutting-edge common equipment, research space for experiments, Facility for iPS Cell Therapy, and Animal Research Facility.- have access to CiRA’s support system, which includes offices responsible for secretarial tasks, medical applications, intellectual property management, dissemination of research findings, and acquisition and management of research funding, ensuring an environment that allows researchers to focus on their studies.
Job requirements	Eligible candidates are female individuals who hold a doctoral degree in medicine, dentistry, pharmacology, science, or engineering, preferably obtained within the last seven years. No prior research experience or achievement in iPS cells is required.

Contract period	<p>A five-year term (non-renewable) starting from the earliest possible date after March 1, 2025.</p> <p>However, depending on performance during this period, there may be opportunities for career advancement at the Institute.</p> <p>(The start date is negotiable; the earliest possible start date is preferred.)</p>
Probationary period	Six months
Working conditions	<p>Regular faculty staff of Kyoto University (full-time Junior Associate Professor)</p> <ul style="list-style-type: none"> • Salaries, etc. are determined based on the Kyoto University standards in accordance with capabilities and backgrounds. • Discretionary work system for specialist staff (38 hours and 45 minutes/week, 7 hours and 45 minutes/day) • 8:30 a.m. to 5:15 p.m. (break 12:00 p.m. to 1:00 p.m.)/ 5 days a week, when Discretionary work system for specialist staff is not applied. • You may be ordered to work overtime as needed. • Holidays: Saturdays, Sundays, national holidays, year-end and new-year break, and the anniversary of foundation holiday. • Social insurance: Health Insurance of MEXT Mutual Aid Association, employee pension insurance, industrial accident compensation insurance, and employment insurance.
Deadline for application	Monday, January 27, 2025
Documents to be submitted	<p>Please submit the following documents:</p> <ol style="list-style-type: none"> 1. Curriculum vitae (Form 1) <ul style="list-style-type: none"> Please attach your face photo on the CV and write the email address and telephone number by which we can unfailingly contact you. 2. List of research achievements or other professional achievements (publications, presentations, acquired research funds, patents, roles engaged in, etc.) (Form 2) 3. Outlines of past research progress, research results, or work you have taken charge of (Form 3) 4. Research plan (Form 4) 5. Essay in approx. 1,000 words (No designated form) <ul style="list-style-type: none"> Please choose one topic from the below and express your opinion. • Future of Life Sciences and Medicine • Science and Ethics • My career as a scientist in next ten years 6. Recommendation (up to two referees) (optional) <ul style="list-style-type: none"> • Please use the Forms 1 through 4 for the documents 1 through 4. If you do not find appropriate items in the Forms when documenting your professional achievements, please add the necessary items to the Forms as needed. • You will find the Forms for downloading at: http://www.cira.kyoto-u.ac.jp/j/images/pdf/Application_Forms.zip <p>※Additional information may be requested in the process of screening.</p>
Contact	Please send application documents by mail or e-mail to the following address.

	<p>Personnel Section, Center for iPS Cell Research and Application, Kyoto University 53 Kawahara-cho, Shogoin, Sakyo-ku, Kyoto 606-8507, Japan E-mail : jinji-admi*cira.kyoto-u.ac.jp (Please change * to @) Phone : 075-366-7309</p> <p>Please clearly indicate "Application for CiRA Project for Discovering and Developing Future Independent Researchers" on the envelope or in the subject line of the email.</p> <p>For inquiries regarding the job description, working conditions, etc., please contact us at the following address. Ensure the subject line reads: "Application for CiRA Project for Discovering and Developing Future Independent Researchers".</p> <p>E-mail : jinji-admi*cira.kyoto-u.ac.jp (Please change * to @)</p>
<p>Selection method</p>	<p>After the screening of documents, an interview will be conducted. Applicants will be contacted by email or in writing at a later date for further details. During the interview, applicants may be asked to give a presentation on the contents of their research plan, etc. (If a presentation is requested, the Institute will cover domestic travel and accommodation expenses. The amount paid will be based on the Kyoto University Rules for the Provision of Travel Expenses. In some cases, the presentation may be conducted online.)</p> <p>After the application deadline, applicants who pass the document screening will be asked to give a presentation in early February. (The presentation is to be given in English.)</p> <p>The results of the review will be notified to the applicants by email or in writing as soon as a decision is made.</p>
<p>Gender equality</p>	<p>Kyoto University promotes gender equality. As part of the university's measure to promote gender equality, we will conduct a recruitment limited to women under Article 8 of the Act on Equal Opportunity and Treatment between Men and Women in Employment (Equal Employment Act).</p> <p>As for the period during which the research was discontinued due to childbirth, childrearing, or caregiving, please describe the details in the curriculum vitae as the review is performed in consideration of its content and the period.</p>
<p>Others</p>	<p>Submitted documents shall be used just for the selection, and never be disclosed, transferred, or lent to the third party without due reasons.</p> <p>Please be advised that submitted documents shall not be returned.</p> <p>Kyoto University is working to prevent passive smoking, by prohibiting indoor smoking on all campuses and also outside smoking except in designated areas.</p>
<p style="text-align: center;">We are looking forward to your application.</p>	

CiRA Recruitment

**Assistant Professor (Female Only)*, the Faculty Consort of iPS Cell Research and Application (CiRA),
Kyoto University (CiRA Project for Discovering and Developing Future Independent Researchers)**

*** Only one position, either Junior Associate Professor or Assistant Professor, will be filled.
Please refer to the earlier part of this PDF for the application guidelines for the Junior**

December, 12, 2024

Position	Assistant Professor (female only)
Work location	Center for iPS Cell Research and Application (CiRA), Kyoto University Address: 53 Kawahara-cho, Shogoin, Sakyo-ku, Kyoto Access: five-minute walk from Jingu-marutamachi station of Keihan Railway *Home, etc., if telecommuting is permitted or ordered by Kyoto University.
Job description	<p>The Center for iPS Cell Research and Application (CiRA), under the “CiRA Project for Discovering and Developing Future Independent Researchers”, is seeking an assistant professor who will engage in the following research.</p> <p>The successful candidate will be affiliated with a CiRA laboratory (※) and practice a research theme of high originality after discussion with the principal investigator of the laboratory. Examples of research themes include:</p> <ul style="list-style-type: none"> • new horizons for research fields using iPS cell technologies • pioneering life science at the molecule, cell and/or tissue level by developing original cell technology • realizing personalized medicines and drug discovery • promoting regenerative medicine using the iPS Cell Stock <p>Innovation is paramount, and proposals outside the above list are also welcome. We especially welcome applications that propose new frontiers in life sciences.</p> <p>※Before submitting the application, please receive informal consent from the principal investigator of the affiliated CiRA laboratory. Laboratories can be seen at the following links. (The principal investigator of the host laboratory will serve as the faculty mentor.)</p> <p>http://www.cira.kyoto-u.ac.jp/e/research/investigator.html#frontier</p> <p>http://www.cira.kyoto-u.ac.jp/e/research/investigator.html#growth</p> <p>http://www.cira.kyoto-u.ac.jp/e/research/investigator.html#clinic</p>
Support System	<p>The successful candidate will:</p> <ul style="list-style-type: none"> - be employed as regular faculty staff (Assistant Professor) prescribed in Kyoto University Work Rules for Faculty and Staff. - receive a start-up research fund for 3 years. - be assigned a research assistant (a part-time researcher, technical staff, etc.). - be employed for five years with no renewal. - be assigned a faculty mentor to support and advise research activities as needed.

	<ul style="list-style-type: none"> - have access to well-equipped research environment, including cutting-edge common equipment, research space for experiments, Facility for iPS Cell Therapy, and Animal Research Facility. - have access to CiRA's support system, which includes offices responsible for secretarial tasks, medical applications, intellectual property management, dissemination of research findings, and acquisition and management of research funding, ensuring an environment that allows researchers to focus on their studies.
Job requirements	Eligible candidates are female individuals who hold a doctoral degree in medicine, dentistry, pharmacology, science, or engineering, preferably obtained within the last seven years. No prior research experience or achievement in iPS cells is required.
